

Welcome to Points to ponder for January 2015, sales of our new under path products which are gaining acceptance and specification on new work to protect paths and pipes. Google "UPGI" if you have not seen the system yet. We had a stand at CIVENEX before Christmas and from that three U tube videos have been produced, one for Under Path Growth Inhibitor (UPGI), one for UPGI for trenches and one for Root Barriers and building foundations.

I have attached the videos, hopefully they make the communication of the applications and process easier.

Video 1: Root Barrier http://youtu.be/rWtdZ8wGi_0

Video 2: UPGI <http://youtu.be/pfei4MbHAvI>

Video 3: UPGI for Trenches <http://youtu.be/XtDZUDM1S34>

Results

DEEDI soil testing

Results for testing on 8 June (Prior to placing treatment) and 2 August 2010 (Post treatment) using TPS smartCHEM-LAB meter.

Electrical Conductivity (EC) is a convenient method for measuring soil salinity. The bar charts show June soil samples in Black and August samples in Green.

The graph below shows that the Under Path Growth Inhibitor did **not** leach into the surrounding environment.

A little levity

A young man is reported to have approached the renowned composer Wolfgang Amadeus Mozart (one of the great musical prodigies of all time), and asked, "Herr Mozart, I have the ambition to write symphonies and perhaps you can advise me how to get started."

Mozart said, "The best advice I can give you is to wait until you are older and more experienced, and then try your hand at less ambitious pieces."

The young man looked astonished. "But, Herr Mozart, you yourself wrote symphonies when you were considerably younger than I."

"Ah," said Mozart, "but I did so without asking advice."

This is too true to be funny.

The next time you hear a politician use the word 'billion' in a casual manner, think about whether you want the 'politicians' spending YOUR tax money.

A billion is a difficult number to comprehend, but one advertising agency did a good job of putting that figure into some perspective in one of its releases.

**A.
A billion seconds ago it was 1959.**

**B.
A billion minutes ago Jesus was alive.**

**C.
A billion hours ago our ancestors were living in the Stone Age.**

**D.
A billion days ago no-one walked on the earth on two feet.**

**E.
A billion Dollars ago was only 13 hours and 12 minutes, at the rate our government is spending it!**
